

Ameriphone Dialogue Voice Carry Over Phone

This extremely versatile telephone is designed not only to meet the needs of people with hearing loss, but also to provide a phone with all the latest features that can be used by the rest of the family.

With its powerful hearing aid compatible amplifier, tone amplification selector and automatic tone enhancement, voices can be amplified **up to 30 decibels**.

For people with severe hearing loss or who are Deaf, Voice Carry Over calls can be made through New Zealand Relay.

Voice Carry Over allows you to speak into the handset while incoming messages are displayed as text on the screen. Just read then talk. It's that simple!

New Zealand Relay has been providing the Deaf and hearing impaired with the ability to make calls on the same terms as the hearing community for over two years.

You can make your own appointments; get instant answers and make any call you like, at anytime of the day, seven days a week. You no longer have to rely on other people to help you.

Plus, most landline calls made via NZ Relay within New Zealand are toll-free.

New Zealand Relay is a free government-mandated service operated by Sprint New Zealand. The service is totally confidential and is available to people referred by a registered medical practitioner or appropriate health professional.

For an application form please contact the NZ Relay Help Desk on 0800 4 715 715 or
e-mail helpdesk@nzrelay.co.nz
